	Ryoya Sakata		trinsic magnetic field on ion escape from Mars based on multispecies and multifluid MHD simul
			EP-induced diffuse auroral emissions and photochemistry on Mars
4:10-14:20	Moa Persson	Ion escape at '	Venus and how it compares to Mars
4:20-14:30	Taishin Okiyama	Effects of magn	netic field structure on the Martian diffuse aurora based on Monte Carlo simulations and MAVE
4:30-14:40	Maodong Yan	Kelvin-Helmho	Itz Instability at Mars and Venus by a Newly-developed Multifluid Model
4:40-14:50	Tomoaki Nishioka	Numerical simu	lation of ion escape from a terrestrial exoplanet
4:50-15:00	Naoyuki Takeuchi	MAVEN and M	ars Express observations of the nightside ionosphere and tailward ion escape of Mars
			tian atmosphere, Dependence of Martian upper atmosphere on magnetic field
